

### UV Water Disinfection 5-Stage RO System

Designed to disinfect drinking water, without the use of harmful chemicals. Effective against microbes and protozoan cysts that are highly resistant to chlorine, eliminating these threats from water with an effectiveness of 99.99%. Perfect for applications with well water sources and other installations where sanitation is a concern.

### Alkaline 4-Stage RO System

Designed to put beneficial minerals back into RO water to produce a pH balanced alkaline water. Essential minerals include ionized calcium, magnesium, sodium, and potassium. Perfect for those who are health-conscious to the benefits attributed with raising pH levels.

#### 5-STAGE

- ▶ Sediment Pre-Filter, 5μ
- ▶ Carbon Block Pre-Filter, 10μ
- ▶ RO Membrane
- ▶ Carbon Block Post-Filter, 10μ
- ▶ Ultraviolet Disinfection

#### 4-STAGE

- ▶ Sediment Pre-Filter, 5μ
- ▶ Carbon Block Pre-Filter, 10μ
- ▶ RO Membrane
- ▶ Alkaline Post Filter

### STANDARD FEATURES

- High Quality RO Membrane
- Superior Pre-Treatment Filters
- Automatic Shutoff Valve
- John Guest® Quick Connect Fittings
- Installation Parts Packet
- Easy to Follow User Manual
- Fully Assembled
- One Year Limited Warranty
- Assembled in the U.S.A
