

# Boost Your Bottom Line with the Pro Res Care® System

Increase sales nearly  
**\$13,000** and over  
**\$5,000** in profit with the  
**Pro Res Care® System\***

**Pro Res Care** increases the efficiency of a softener up to **90%** by cleaning the resin and softener components of iron, silt, manganese, salt build-up, metal particles and organic compounds.

The Pro Easy Feeder™ is non-electric and easy to install and use. Can be installed inside or outside of the brine tank.
